BNP was selected from a group of worldwide consultants to provide the baggage system integration design services related for the deployment.

BNP PROJECT DIRECTOR

NORBERT AWLASEWICZ

It involves every major US airport, numerous airlines and, of course, numerous baggage systems. BNP's involvement runs the gamut from simple stand-alone installations – where we provide airline liaison and utilization requirement analysis – to full scale complex and automated installations. The trust that the airlines have for BNP facilitates the FAA's mandate and ensures that airlines operations are of paramount importance.
